Parish Newsletter

This Gospel story shows us the nobility of a humble change of mind. The first son “thought the better of it.” He was open to change, to better thoughts. The second son was set and closed. The ability to change one’s mind is essential to all healthy relationships. A mind that is closed, whether from pride, stubbornness or stupidity, tends to destroy all relationships–e.g., when we refuse to admit a mistake, when we are unwilling to apologise and change our ways, when we persist in prejudice against a person or group, when we think we know it all.

Season of Creation

The Season of Creation is a time to renew our relationship with our Creator and all creation through repenting, repairing, and rejoicing together. During the Season of Creation, we join our sisters and brothers in the ecumenical family in prayer and action for our common home. This year, amid the crises that have shaken our world, we’re awakened to the urgent need to heal our relationships with creation and each other. During the season this year, we enter a time of restoration and hope, a jubilee for our Earth, that requires radically new ways of living with

creation. The Season of Creation unites the world’s 2.2 billion Christians around one shared purpose. With so much injustice all around us, now is the time for Christians everywhere to come together and show the world how to love each other and creation.

Trócaire

The theme for our Season of Creation this year is Cultivating Hope. We celebrate this season, in the awareness that we are in the midst of an international health crisis. The environmental crisis and this health crisis are interconnected. Both are global emergencies that are affecting many people. Pope Francis’s ground-breaking encyclical Laudato Sí reminds us of our duty to care for Our Common Home and for the people and nature around us. We have all come from some kind of home and are held within the relationships of that experience. So too, we are also held within a relationship with the natural world and all of God’s creation. Our connection with each other and with our common home is more important than ever. What we do locally can have global effects, the more we keep our locality clean, the cleaner our world will be.
